ABOUT THIS DIRECTORY

This directory has been created to make it easier for charities and organisations to access information about trusts and foundations across the UK. It provides clear details on how to apply, what each trust funds, typical grant ranges, and relevant contact information.

The trusts are organised by region, helping you to identify local or regional funding opportunities quickly. For each trust, we have included any available website links—these are useful for reviewing eligibility criteria, downloading application forms, or finding guidance on the application process. Where no website is listed, applicants can often find more detailed information via the Charity Commission's online register by searching the charity name or registration number.

USERS OF THIS DIRECTORY ARE ENCOURAGED TO:

- Visit the trust's website where provided to ensure the latest guidance and deadlines.
- Check the Charity Commission pages for up-to-date accounts, reports, and additional information about the charity's objectives.
- Contact the named trustee or administrator if clarification is needed about the application process or funding priorities.

By combining these steps with the information in this directory, charities can identify trusts that align with their work, tailor applications more effectively, and improve their chances of securing funding.
